FOREWORD

Prime Contract Awards by Region and State is published annually. This issue provides information on the geographical distribution of Department of Defense prime contract awards over \$25,000 for Fiscal Years (FY) 1990, 1989, and 1988 by the United States region and state.

This information is detailed in ten tables and three figures showing:

1. The net value and percent distribution of awards, by region and state, for FY 1990, 1989, and 1988;
2. The net value and percent distribution of awards within the seven major hard goods programs, by region, for FY 1990, 1989, and 1988;
3. The net value and percent distribution of awards in the 25 major procurement programs for each state for FY 1990, 1989, and 1988; and
4. The net value and percent distribution of awards for research, development, test and evaluation by region and state according to the type of contractor for FY 1990, 1989, and 1988.

IV-3 Net Value and Percent Distribution of DoD Prime Contract Awards Over \$25,000 for RDT&E, by Region and State, According to Type of Contractor: FY 1990	74
IV-4 Net Value and Percent Distribution of DoD Prime Contract Awards Over \$25,000 for RDT&E, by Region and State, According to Type of Contractor: FY 1989	77
IV-5 Net Value and Percent Distribution of DoD Prime Contract Awards Over \$25,000 for RDT&E, by Region and State, According to Type of Contractor: FY 1988	80

INTRODUCTION

This report contains a variety of data on the net value and percent distribution of DoD prime contract awards over \$25,000 within the United States, by region and state, for Fiscal Years (FY) 1990, 1989, and 1988.

This publication is divided into four parts: Part I, Net Value and Percent Distribution of DoD Prime Contract Awards Over \$25,000 by Region and State; Part II, Net Value and Percent Distribution of DoD Prime Contract Awards Over \$25,000 for Major Hard Goods; Part III, Net Value and Percent Distribution of DoD Prime Contract Awards Over \$25,000 by State; Part IV, Net Value and Percent Distribution of DoD Prime Contract Awards Over \$25,000 for Research, Development, Test, and Evaluation.

Prime contract data are not a means of measuring the total volume of defense work performed within a state, as a substantial amount of the work may be subcontracted.

Notes on Coverage

Contract work is not necessarily performed in the state where the contract is awarded. Most manufacturing contracts have been attributed to the contractor's location where the product will be processed and assembled. When contract work has been performed at more than one plant, the contract has been attributed to the location where the largest dollar amount of work was produced. Both construction and service contracts have been attributed to the state where the work is to be performed. Contracts for transportation and communication services in most cases have been attributed to the state where the contractor's home office is located. For purchases from wholesale or other distribution firms, the location is the contractor's business address.

Amounts not distributed by state include contract actions performed in classified locations and other contract actions for work performed in the U.S. outlying areas.

Some special characteristics of the data on prime contract awards by procurement program category should be noted:

1. The Electronics and Communication Equipment category includes all electronics procured separately under prime contract. However, in the case of Missiles and Space Systems or Aircraft Engines and Related Spares, electronics work is often a basic part of the assembly prime contract; therefore, awards for electronics are included in the statistics for these categories.
2. Contracts for all other types of equipment and parts for repair, maintenance, overhaul, modification, or other services, which can be identified with a specific category, are assigned to that category. As an example, the installation or inspection of equipment at ballistic missile sites is recorded as missile work in the state where the site is located. However, the contract for manufacturing such equipment is reported according to the location of the manufacturer's plant. Therefore, aircraft, missile, or other program contracts may be reported in states where there are no weapon assembly plants but where bases, laboratories, or suppliers of instruments, parts, or support equipment may be located.
3. The dollar value shown for each category includes the Research, Development, Test, and Evaluation (RD&E) work associated with it. RD&E coverage includes research, exploratory development, advanced development, engineering development, operational systems development, and management and support. Full definitions for each of these categories are provided in Federal Acquisition Regulation 235.001.
4. Figures in these tables may not add up due to rounding.

Highlights

Total prime contract awards in FY 1990 totaled \$144,673 million, an increase of \$5,330 million or 3.8 percent more than FY 1989. Awards over \$25,000 for work performed within the United States, by region and state, are shown in this report. These awards totaled \$121,254 million in FY 1990. The kinds of awards not included in this report (see Notes on Coverage) are distributed as follows:

Type of Awards	Awards in FY 1990		Awards in FY 1989		Awards in FY 1988	
	Millions	Percent	Millions	Percent	Millions	Percent
TOTAL - Prime Contract Awards	\$144,673	100	\$139,343	100	\$151,353	100
LESS						
Actions of \$25,000 or less	\$ 13,914	10	\$ 10,385	7	\$ 13,275	9
Not Assigned to a State	2,807	2	2,588	5	4,108	3
Work Outside the United States	6,697	5	6,454	2	8,202	5
SUBTOTAL	\$ 23,418	16	\$ 19,426	14	\$ 25,585	17
TOTAL - Awards Distributed to Regions and States	\$121,254	84	\$119,917	86	\$125,767	83

Note: Figures in this table may not add up due to rounding.

PART I **NET VALUE AND PERCENT** **DISTRIBUTION OF PRIME CONTRACT AWARDS** **OVER \$25,000, BY REGION AND STATE**

The U.S. regions are shown in Figure 1-1 (page 4). The three regions that received the largest share of the awards in FY 1990 were the Pacific (21.5 percent), the South Atlantic (18.9 percent), and New England (11.8 percent). (See Figure 1-2, page 5.) Those regions that make up the eastern part of the United States received awards totaling \$65,239 million or 53.8 percent. The western regions received the remaining \$56,015 million or 46.2 percent of the awards.

Table 1-1 (page 6) shows the net value and percent distribution of awards, by region and state, for FY 1990, 1989, and 1988. The regions with the largest percent increase in the net value of prime contract awards from FY 1989 to FY 1990 were the East South Central, up 22.5 percent; the South Atlantic, up 18.6 percent; and the Mountain, up 10.2 percent. Conversely, the regions having the largest percent decrease in the net value of total prime contract awards from FY 1989 to FY 1990 were New England, down 12.3 percent; the East North Central, down 6.9 percent; and the Pacific, down 4.7 percent. The remaining regions had award changes in FY 1990 ranging from 4.4 to -2.5 percent.

Of the individual states, Maine had the largest percentage increase, \$473 million or 127.9 percent, while Vermont had the largest decrease, \$68 million or -54.1 percent. Nine other states had award increases totaling 20 percent or more; five other states had award decreases totaling 20 percent or more.

The following ten states had the largest percentage change in procurement award dollars from FY 1989 to FY 1990 (shown from largest percentage increase or decrease to smallest percentage increase or decrease):

STATE	PERCENT CHANGE	DOLLAR CHANGE (\$000)
Maine	127.9	\$473
Oregon	104.3	186
Vermont	-54.1	-88
South Dakota	-47.2	-32
Delaware	-44.0	-75
Idaho	-44.0	-33
Alabama	39.2	546
West Virginia	37.8	62
Virginia	34.3	2,022
Rhode Island	32.9	137

PART II
NET VALUE AND PERCENT DISTRIBUTION OF DoD PRIME
CONTRACT AWARDS OVER \$25,000 FOR MAJOR HARD GOODS

Figure II-1 (pages 10 and 11) shows the top three regions for FY 1990 in each of the seven major hard goods programs, as well as the net value and percent distribution of awards in each region for FY 1990 and 1989. The Pacific region ranked as one of the top three regions most frequently, placing first, second, or third in five of the seven major hard goods programs. Table II-1 (pages 12 and 13) shows the net value and percent distribution of awards within the seven major hard goods programs, by region, for FY 1990, 1989, and 1988. Table II-2 (page 14) shows that awards within these hard goods programs accounted for 71 percent of all prime contract awards in FY 1989 and FY 1990. Overall, hard goods programs decreased 0.9 percent from FY 1989 to FY 1990. The percentage distribution of awards within the seven major hard goods programs, both as a percentage of all awards and as a percentage of all hard goods awards, shows awards for aircraft, missiles and space systems, and tank-automotive equipment decreased from FY 1989 to FY 1990, while awards for ships, weapons, ammunition, and electronics and communications equipment increased during the same time period.

PART III
NET VALUE AND PERCENT DISTRIBUTION OF DoD
PRIME CONTRACT AWARDS OVER \$25,000 BY STATE

The net value and percent distribution of awards in each of the 25 major procurement programs for the fiscal years 1988 through 1990 for individual states are provided in Tables III-1, beginning on page 17. Table III-2 (page 69) shows the five leading states in each of these 25 procurement programs for FY 1990. While California ranked first in nine of the programs, there was a broad representation of other states in the top five ranking. A total of 32 states appear in the table, the same number which appeared in FY 1989 and FY 1988. In FY 1990, 13 states ranked first in one or more of the programs compared with 12 states in FY 1989.

PART IV **NET VALUE AND PERCENT DISTRIBUTION OF DoD PRIME** **CONTRACT AWARDS OVER \$25,000 FOR RESEARCH,** **DEVELOPMENT, TEST, AND EVALUATION**

As shown in Table IV-1 (page 72), RDT&E awards totaled \$21,791 million in FY 1990, a decrease of \$175 million or 0.8 percent from the FY 1989 figure. Nevertheless, the ratio of RDT&E awards to total awards remained at 18 percent for FY 1990 from FY 1989 to FY 1990.

Table IV-2 (page 73) shows the net value and percent distribution for both total awards and RDT&E awards, by region, and the percent distribution of RDT&E awards within each region for FY 1990. Four of the nine regions received more RDT&E awards in FY 1990 than in FY 1989. The three regions that had the largest dollar increases were the South Atlantic (\$3,593 million), the East South Central (\$919 million), and the Mountain (\$798 million). In terms of the distribution of RDT&E awards, the Pacific region showed the most significant change. In FY 1989, 31.6 percent of RDT&E awards were in this region; however, in FY 1990, this percentage increased to 33.9 percent.

The ratio of RDT&E awards to total awards showed a decrease from FY 1989 to FY 1990 (18.3 percent to 18.0 percent). Regional RDT&E awards as a percent of regional total awards did not change significantly. The seven regions showing increases were the East South Central (22.5 percent), South Atlantic (18.6 percent), Mountain (10.2 percent), East North Central (8.9 percent), Middle Atlantic (4.4 percent), West North Central (2.5 percent), and the West South Central (2.4 percent).

Tables IV-3, IV-4, and IV-5 (pages 74, 77, and 80, respectively) show the net value and percent distribution of prime contract awards for RDT&E work, by region and state, according to type of contractor (educational institutions, other nonprofit institutions, and business firms), for FY 1990, 1989, and 1988, respectively. As shown in Table IV-3, the four states receiving the largest share of RDT&E awards in FY 1990 were California (30.2 percent), Colorado (10.8 percent), Massachusetts (10.0 percent), and Missouri (4.3 percent).
